PSSW was organized in 1979 to further the study and appreciation of the medium of pastels. This organization encourages artists to explore the many techniques and uses of pastels. Many have discovered how versatile and exciting the medium can be in the following activities the Society has to offer.

**General Meetings:** Six programs a year are provided for your education and pleasure, including demonstrations of techniques and styles in portraits, landscapes, and still life, as well as critiques, slide shows, and other subjects.

**Workshops:** Prominent professional artists from across the nation come to give quality instruction to our members. These workshops are from 3-5 days long and are usually offered once a year.

**Annual Juried Exhibition:** To enhance the reputation of pastels, the Society sponsors a show that presents pastel works of the highest artistic excellence. The juror is a prominent professional artist and is usually the workshop instructor.

**The Pasteller:** Members receive six newsletters a year that inform about upcoming PSSW events and the activities and awards of members.
